

CUSTOMER JOURNEY MAP

Enterprise SaaS B2B Acquisition & Adoption Lifecycle

Target Persona: **IT Director (Alex)**
Scope: **Evaluation to Advocacy**
Status: **Q4 Strategic Baseline**

PERSONA PROFILE Alex Mercer Director of Enterprise Infrastructure	CORE GOALS Streamline Cloud Security Reduce operational overhead by 30%	KEY FRICTION Complex Vendor Setup Concerns around data compliance	SUCCESS METRIC Time-to-Value < 14 Days Seamless API integration
--	--	--	--

PART I: DISCOVERY, EVALUATION & DECISION (STAGES 1 – 3)

PHASE / DIMENSION	1. AWARENESS	2. CONSIDERATION	3. DECISION & PURCHASE
CUSTOMER GOAL	Identify solution for growing security vulnerabilities in multi-cloud setup.	Compare top-rated vendors, validate feature sets, and check compliance.	Obtain executive budget approval, negotiate terms, and finalize contract.
CUSTOMER ACTIONS	- Reads industry reports (Gartner/IDC). - Searches "Automated Cloud Audit". - Discusses pain points on Peer Forums.	- Downloads product whitepaper. - Attends live product webinar. - Requests custom sandbox trial.	- Reviews SOC2 compliance docs. - Submits custom RFP to sales. - Executes legal & security review.
TOUCHPOINTS & CHANNELS	LINKEDIN GOOGLE SEARCH TECH BLOG	WEBSITE LIVE DEMO WEBINAR	SALES TEAM SECURITY PORTAL DOCUSIGN
SENTIMENT & EXPERIENCE	😞 Overwhelmed High anxiety regarding potential system breaches and lack of visibility.	😊 Optimistic Encouraged by feature capabilities shown during live demo.	😡 Frustrated MOMENT OF TRUTH Procurement delays and complex licensing tiers create friction.
PAIN POINTS	- Too much generic marketing jargon. - Unclear pricing models online.	- Gated content requires too many form fields. - Trial environment lacks sample data.	- Slow responses from legal team. - Rigid contract terms.
STRATEGIC OPPORTUNITIES	SEO & Authority Content: Publish transparent benchmark reports and clear pricing tiers.	Interactive Demo: Provide instant pre-populated sandbox environments for instant testing.	Streamlined Procurement: Provide pre-signed security packets and flexible SLA templates.

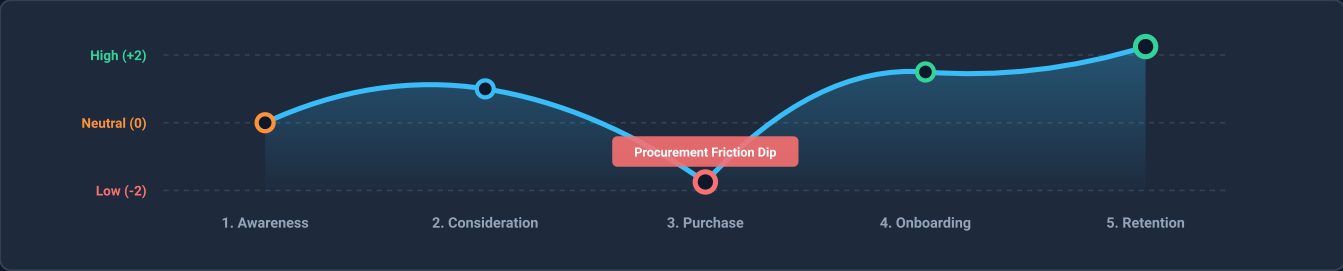

KEY INSIGHT: DECISION PHASE FRICTION

Security compliance validation causes 60% of deal delays. Providing a self-serve Security & Compliance Trust Center in Stage 2 reduces the procurement cycle by up to 11 days.

PART II: ONBOARDING, RETENTION & ADVOCACY (STAGES 4 – 5)

PHASE / DIMENSION	4. ONBOARDING & IMPLEMENTATION	5. RETENTION & ADVOCACY
CUSTOMER GOAL	Deploy platform across core infrastructure and train technical team.	Scale usage, achieve full ROI, and renew annual subscription.
CUSTOMER ACTIONS	- Attends kickoff call with CS Manager. - Connects cloud environment via API. - Completes admin certification course.	- Reviews monthly executive value dashboards. - Expands seat licenses for DevOps team. - Agrees to participate in customer case study.
TOUCHPOINTS & CHANNELS	CS PORTAL API DOCS SLACK CONNECT	QBR MEETINGS IN-APP DASHBOARD COMMUNITY FORUM
SENTIMENT & EXPERIENCE	😊 Relieved MOMENT OF TRUTH Fast API connection delivers first threat report within 2 hours.	😊 Empowered & Loyal Demonstrated ROI to C-suite creates internal promotion and brand advocacy.
PAIN POINTS	- Complex custom SSO configuration steps. - Documentation lacks edge-case examples.	- Unnoticed feature updates without in-app guidance. - Annual renewal price escalations.
STRATEGIC OPPORTUNITIES	Guided Setup Wizard: Implement automated in-app onboarding checklists and dedicated technical architect support.	Proactive Value Alerts: Send automated quarterly ROI summaries highlighting prevented security threats.
